

TAN integration Workshop

H. Burkhardt LOC 14.03.2006

chaired by
Daniela Macina, Emmanuel Tsesmelis

with :

Luminosity monitor at IR1/IR5 from LBL W. C. Turner, Alessandro Ratti

Luminosity monitor and LHC operation, H. Burkhardt

LHCf detectors, Oscar Adriani (INFN Florence)

ATLAS ZDC, Michael Murry (Kansas U)

CMS ZDC, Sebastian White (BNL)

Good, constructive working atmosphere. Talks on web <http://tan.web.cern.ch/tan/>

Message that **robust luminosity important, particularly in early running was well received..**

Some follow up with LBL on lumi acceptance, background (coincidences)...
